### ***Allowable Subject Matter***

Regarding independent claim 42, the prior art fails to disclose or suggest the claimed provision "comparing a high-level query vector to a high-level feature vector of the other piece of media content and a result of comparing a low-level query vector to a low-level feature vector of the other piece of media content and combining the weight result to determine whether to identify the other piece of media content for rendering" as claimed in conjunction with remaining claims provisions.

4. The dependent claims, being further limiting to the independent claims, definite and enabled by the Specification are also allowed.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
